OUR EXPERTISE AT YOUR SERVICE

Gaskets are a key element for the performance and durability of any refrigeration equipment.
If checked and changed regularly, they can prevent serious damage to refrigerators, cold rooms, blast chillers and refrigerated cabinets.

In this new catalogue you can easily find the REPA Group's complete and unique commercial refrigeration gaskets range, all in one place.

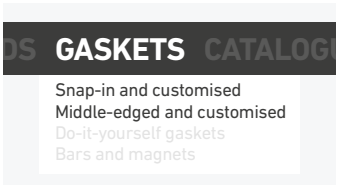
Tailor made gaskets: industrial-grade quality

Our main aim is to be the best business partner for our customers, this is the reason why we decided to invest resources and efforts to produce excellent quality tailor made gaskets directly in our warehouses.

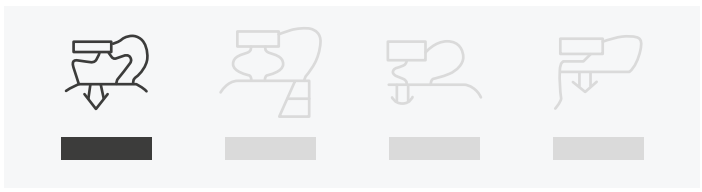
The REPA Group supply everything commercial refrigeration professionals look for in their daily activities.
For this reason, we directly produce the types of gaskets they need when they need them.

This exclusive service with our fast delivery is at your disposal through our powerful webshops where every customer can create the right gasket for each equipment model: just put in your desired measures, add to cart and you will receive your tailor-made gaskets in 3-5 days.

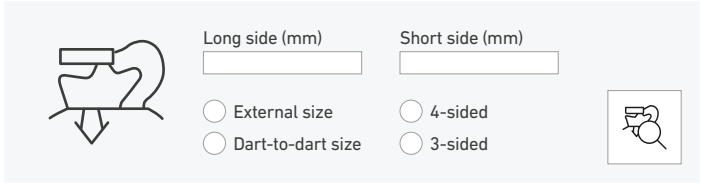
How to order your tailor-made gasket online



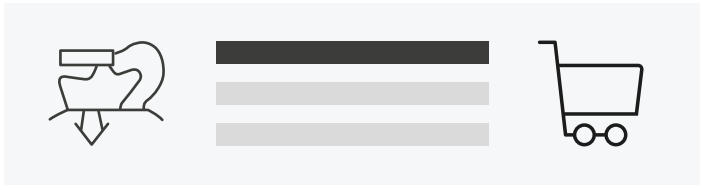
After logging into our webshops, go to the gaskets section (drop-down menu or top right button), and choose the type of gaskets you require.



Select your desired profile from the search results, filtering by manufacturer and/or equipment will make it easier for you to find the gasket you need.



Input the gasket's dimensions, specifying if it is 4-sided or 3-sided.



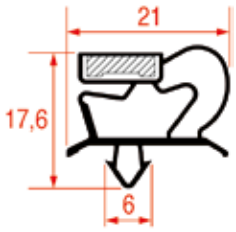
Select your product from the list and put it in your cart.

[If the gasket you need does not come up in the search, a form will appear where you will be able to request a tailor-made gasket].

SNAP-IN GASKETS

Our gaskets can be ordered tailor-made, except for profiles marked with “standard measures gaskets”.

When you see this symbol in the profile drawing, it means that profile is provided with a magnet.



LF Profile: 1001

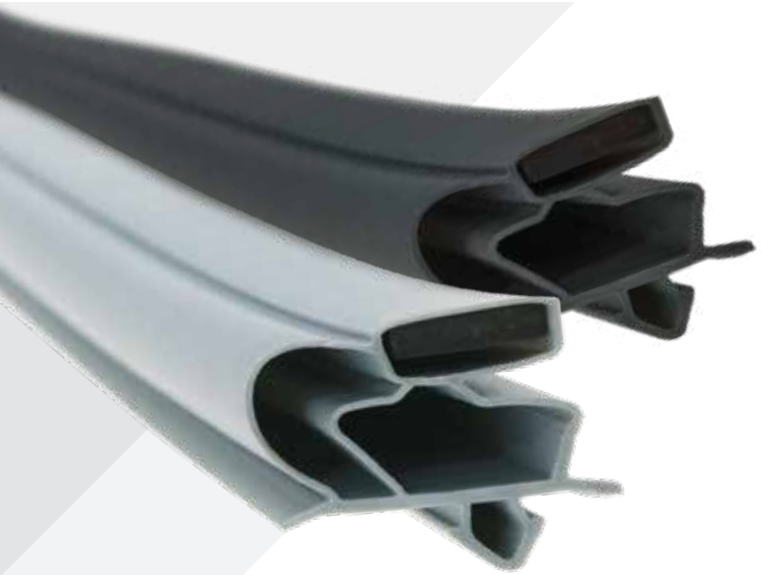
Code (bar): 5125427, 902253
Length: 2500
Color: GREY
Suitable for: ART SERF, ASSKUHL

GASKETS
FOR BLAST CHILLERS



High quality gaskets for blast chillers

Blast chillers are used for quickly cooling prepared food to a chosen temperature and they have a PVC door gasket. It ensures the blast chiller cabinet to be sealed airtight. The compound used for our specific profiles keeps the gaskets flexible till extremely low temperature resulting in better overall durability.

Avoid wasting energy and safe on maintenance cost due to defect door gaskets by using high quality ones.
Using our specific gaskets you will have:

- **thermal shock resistance**
- **extra flexibility**
- **low temperature resistant**

QUICK REPAIR AND MAINTENANCE

LF Code: 3394920
GEV Code: LF3394920

SHEARS FOR GASKETS EDMA

they allow for a perfect cut of your gaskets

LF Code: 3180153
GEV Code: 890136

LOCTITE ADHESIVE 401 - 3g

ethyl cyanoacrylate
low viscosity - colourless
operating temperature -40 to +120°C
fixing time 3÷10 sec
multi-purpose for metals, plastics and elastomers

LF Code: 3180154
GEV Code: 890138

LOCTITE ADHESIVE 454 - 20g

ethyl cyanoacrylate
low viscosity - colourless
operating temperature -40 to +120°C
fixing time 5÷10 sec
particularly recommended to glue porous or absorbent materials
ideal for non-runny applications

LF Code: 3180155
GEV Code: 890305

CYANOACRYLATE ADHESIVE 20 g

for MAGNETIC GASKETS

LF Code: 3186899
GEV Code: 902065

ANGLE BAR FOR GASKET

a perfect support for the corners

LF Code: 3394909
GEV Code: 800424

WELDER FOR GASKETS

230V 300°C
suitable only for welding of refrigerator gaskets

LF Code: 5064085
GEV Code: LF5064085

GASKET CASE FOR REFRIGERATORS

includes 114 REFRIGERATION gasket profiles
snap-in gaskets: 90 profiles
middle-edged gaskets: 24 profiles

LF Code: 3092256
GEV Code: LF3092256

DETERGENT GASKET CARE 1 L

cleans and sanitizes refigerator internal parts and gaskets
please see the attached documentation for use
