Online Tools and Services to Simplify Your Daily Business

One-Stop Shop

Everything you need to repair and maintain equipment of several sectors on one-stop shop. Search, find, order spare parts easily and get them quickly, wherever you are, from a unique player.

Online Tools

All the spare parts you need, in few clicks! Choose the search way you prefer, by appliance, machine model, manufacturer's code, description and many more to quickly find the right part in our webshop.

Search via Manufacturer's Code

Don't you know our item code? We simplify your search of parts by allowing you to look for an item by entering the manufacturer's code.

Exploded Drawings

Finding the right part for each machine model is even easier, when looking for it through our digital interactive exploded drawings. Search for the drawing via manufacturer, machine type or machine name.

360° Pictures

The 360° pictures functionality allows you to see each spare part from every angle. Moreover, by zooming the part, you'll be able to see all the smallest details.

Mobile Apps

REPA LF and REPA GEV are free-of charge Apps suitable for your smartphone and tablet. Available for both iOS and Android, the REPA Apps allow you to find the right part wherever you are.

Excellent Customer Service

Take advantage of REPA highly experienced technical support. We're at your disposal for any technical enquiry to support you in your daily activity.

Automated Distribution System

Thanks to our state-of-the-art logistics we process and deliver your order quickly and efficiently. The automation of our warehouses consent us to provide you with right part, at the right time, every time.
