descripción	silicone de alta temperatura MOMENTIVE RTV106 -60 a +260°C rojo tubo 83ml		
descripción	Momentive RTV106 - tubo 83ml - rojo Se utiliza para el sellado de elementos calefactores, aislamientos eléctricos, y muchas otras aplicaciones en las que existen altas temperaturas. También puede utilizarse en conexiones verticales o en altura. Capacidad de curado a temperatura y humedad ambiente, alta flexibilidad en frío, muy buena resistencia a la intemperie, ozono y productos químicos. Muy buenas propiedades de aislamiento eléctrico. Resistencia a temperaturas de -60°C a +260°C Aprobación NSF		
Para modelos:	ACE5302-P1331307M, ACE5302-P1332912M, ACE5302-P1332914M, DS30E2-P1331309M, DS30E2-P1332916M
