# SHINE CLEAN

## Adjuvant and rinse aid detergent

APPLICATION	SHINE CLEAN is used in several sectors of the food industry and in the commercial sector as a rinsing agent in bottle washers, sprinkling pasteurizers, in autoclave water and in the rinsing of dishware.
PROPERTIES	SHINE CLEAN is a liquid product, with typical blue colour, consisting of a mixture of surfactants able to reduce significantly the surface tension of water, thus favouring drying and the elimination streaks and spots on washed items. SHINE CLEAN has a specific gravity of 0.99, pH (tq) = 5, total active product: about 20%.
INSTRUCTIONS FOR USE	SHINE CLEAN is added to water manually or with a doser pump at concentrations of 0.1-1 ‰
OTHER INFORMATION	SHINE CLEAN is classified as NOT HAZARDOUS according to DM 28/1/92 art. 3 paragraph 3, letter A. Do not dispose of this product in the environment. Composition (648/04/CE): anionic surfactants: inf. 5%, 15-30%: nonionic surfactants.
PACKAGING	5 and 10 kg plastic tanks.
